

1964

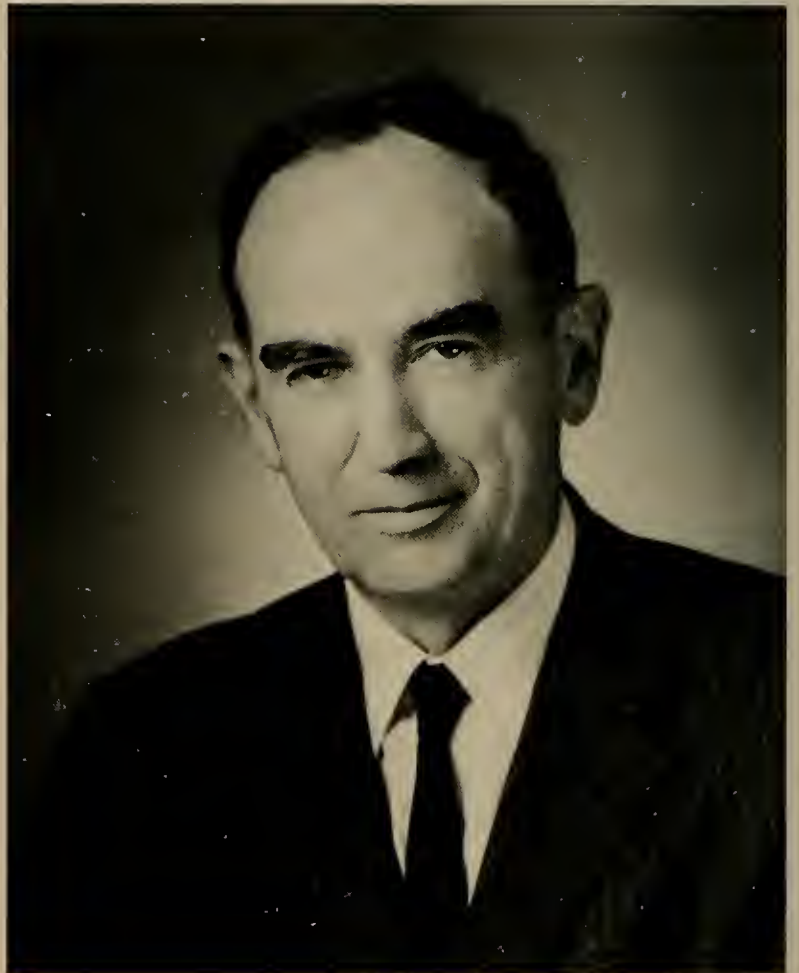

*Bradford Durfee College of Technology*

# DEDICATION

*In recognition of the unselfish giving of his time and energies in our behalf, we the class of nineteen hundred and sixty-four gratefully dedicate this yearbook to Atty. Francis T. Meagher.*

*We want him to know that we will not forget his sincere endeavors to help this class and this college.*

# *President's Message*

January 31, 1964

You members of this class, our associates and I have the very challenging responsibility for the constant improvement of our College. This is the common duty of everyone associated with any college.

The sum of the individual endeavors determines the essence of the whole, the character of the institution. I was deeply appreciative of the contribution of the Class of 1964 in our joint effort when the Chairman of the Examining Committee said that the primary reason for their recommending our accreditation was the integrity and dedication of those associated with the College.

It is a pleasure to contemplate that your proven capacity for thoughtful, mature judgment, which was so helpful here, will contribute so much to the solution of the countless social problems which confront us.

I wish you every success and personal satisfaction in your various careers.

*William J. Holland*

# THE BOARD OF TRUSTEES

Appointed by the Governor

## THE BRADFORD DURFEE COLLEGE OF TECHNOLOGY

Supported by the Commonwealth of Massachusetts  
and the City of Fall River, Massachusetts

### OFFICERS

Francis T. Meagher, *Chairman*  
Wilfred C. Driscoll, *Vice Chairman*  
William J. Holland, *Clerk*

### TRUSTEES

*On the part of the Commonwealth of Massachusetts*  
Dr. Owen B. Kiernan, *Commissioner of Education*  
*On the part of the City of Fall River*  
Hon. Roland G. Desmarais, *Mayor*  
Robert J. Nagle, *Superintendent of Schools*

Manuel H. Camara, Jr., Fall River	Alford Dyson, North Wesport
George H. Cottell, Fall River	Mrs. Ruth B. Merritt, Fall River
Stephen Nawrocki, Fall River	

#### FOR THE TERM ENDING JUNE 30, 1963

Octave O. Desmarais, Sr., Fall River	Francis T. Meagher, Fall River
Matthew J. Kuss, Fall River	William H. Moran, Fall River
Tobias M. Furtado, Fall River	

#### FOR THE TERM ENDING JUNE 30, 1964

Edward S. Bliss, Fall River	Emanuel Gittelman, Somerset
Wilfred C. Driscoll, Fall River	Charles P. Mullen, Westport
Albert G. Pierce, Westport	

# FOREWORD

In presenting this yearbook, it is our purpose to comply with the wishes of the Senior Class for both a comprehensive presentation of their activities at Bradford Durfee College of Technology and for a yearbook that is distinctive and truly representative of our class.

The yearbook staff, fully realizing its responsibilities, has expertly gathered into one volume these descriptions, impressions, and pictures of Bradford Durfee College, its students and its activities.

We hope that this yearbook will enable you to renew old friendships and relive the important events of your college life.

In order that your human experiences and rich memories may not be lost, we present this yearbook.

THE EDITORS

**November 22, 1963**

## CLASS HISTORY

### 1960-1961

As each of us donned our freshman beanies and entered the doors of Durfee College, a new way of life appeared before us. It was not one easily come by nor would it be easily mastered.

We were welcomed by George Attar, president of the Student Council, and honored at a "Get acquainted dance."

Six of the freshmen girls' were chosen for the cheering squad.

The student council provided many opportunities during the holidays for us to get a good glimpse of the social life at college.

February brought the election of class officers and we chose Joe Laliberte, president; Donald Lavoie, vice-president; Dick Szaro, secretary; and Stan Peckham, treasurer.

During March our interests turned toward the fraternities and sororities at college. This was our chance to . . .

### 1961-1962

Having mastered the art of cramming for final exams, we enter our sophomore year with our aims held high.

Many changes were brought to our lives at Durfee College this year.

Epsilon Phi Pi introduced its REEB.

The Circle K was formed.

ACCREDITATION! The word cannot be shouted too loudly. A whole new being has taken a grip on the school with progress, promise, and dedication being an integral part of its purpose. Being accredited by the New England Association of Colleges and Secondary Schools, we are now officially the Bradford Durfee College of Technology. Everyone continues striving for the improvement of our facilities and the establishment of important and necessary programming to insure the continuance of our newly acquired standing. This is a great step forward for the student, for it opens many doors, that were closed until now.

## 1962-1963

After a trying but successful sophomore year we are now juniors. The following were elected class officers for the year; John Boyle, president; William Caine, vice-president; Doreatha Aguiar, secretary; Kevin Travis, treasurer.

PHI PSI opens the college social calendar with the announcement of the forthcoming marriage of their mascot Chug to the beautiful Jugs.

December brought a new college lecture series, a trip to New Hampshire for the Geology Club, and a new frat house for Epsilon Phi Pi.

A Bacchanalian Fiesta was held by the junior class at the Bluffs in Swansea. It was a tremendous success and helped defer the costs of our junior prom.

The big event of the year was our Junior Prom held on Friday, May 10. Festivities began with a cocktail hour at the Belmont Club in Fall River. The program then turned to dining and dancing at the Cliff Walk Manner in Newport, R. I. A final blast was given at the summer home of Barry McDonald in Island Park which wound up the festivities of the day.

## 1963-1964

If it is true that "He who has tilled the summer soil shall reap the rice of fall," let it be said of every member of our class. For only through hard work, strong determination, and sacrifice could we have reached this point in life.

We look forward to an exciting fruitful year with the election of the following class officers; Phil Medeiros, president; Louis Tartaglia, vice-president; Doreatha Aguiar, secretary; and Bill Fitzgerald, treasurer.

The Cotillion room in Taunton provided Kappa Sigma Phi with a setting for their first big dance. Congratulations are in order for Kappa who will be bidding for more sorority members than ever before.

As seniors our first big dance of the year was held at Stone Bridge Inn, and proved a tremendous financial and social success.

With the approaching city elections it was our privilege to hear Mayor John Arruda and Mayor elect Roland G. Desmarais speak on their campaign and city political issues.

Grief struck us as well as the rest of the world with the death of our beloved and dedicated president John F. Kennedy. He will always live in the hearts and minds of free people, as a great leader of a free nation.

## *Student Council*

### *BASEBALL*

The Durfee College baseballers enjoyed a mediocre 4—8 season in 1963, but things look bright for the engineers in the upcoming 1964 diamond season.

Only four men were lost through graduation last year and Coach Jack Furtado will have ten lettermen returning to the fold in 1964. Veterans returning for their last year of competition will be Co-Capt. Doug Bailey and Bill Camara, pitchers; Phil Violette, infielder; and Joe Houde and John McDonald, outfielders.

Quite a few of last years outstanding area high school baseballers are enrolled as freshmen at Durfee College this year, and will be able to compete due to the new athletic rule allowing freshmen to participate in varsity sports. Coach Jack Owen hopes that at least a few of these ex-high schoolers will be able to measure up to the higher caliber of college ball played in the Southern New England Conference.

All in all it looks like a fine season coming up for the engineers. For our fellow seniors playing in their last season, good luck and our hopes for a S.N.E.C. championship.

### *SOCCER*

The Durfee College Soccer team, plagued by injuries throughout the year, finished the 1963 campaign with a 2—9 record. Although statistically this record is anything but impressive, spirit wise, the Engineers record was perfect.

Led by Capt. Jack Owen the Engineers gave a good account of themselves in every game. Many of the losses were only by one or two goals, and many were lost in the closing minutes of the game.

Seniors playing in their last game for the Engineers were Capt. Jack Owen, Bill Clithero, Joe Houde, Phil Violette, Ronnie Friar, Bud Thompson, and Glenn Shoesmith. To these seniors and to the rest of the ball club we extend our congratulations for their following of the old adage, "It's not if you win or lose, but how you play the game."

*A closer look at Whitin — No. 10*

## **Always open**

At Whitin, the doors are always open for new ideas and to new people. The success of any organization is directly proportional to its willingness to base its growth on the thinking of dynamic, creative, forward-looking people — people with the special knowledge and abilities to translate new ideas into practical plans and programs. Whitin has welcomed many. Each has made significant contributions to the improvement of Whitin products and services.

From this "open door policy" Whitin expects to provide additional benefits for its customers — "extra" values to make their mill operations more profitable.

# Special TEXTILE DICTIONARY for BEST RESULTS in Textile Processing

## C

### Castrolite\* (käs/ trō . lītē)

A highly sulphonated castor oil made by an improved process of manufacture. A stable penetrant for dyeing or kier boiling. Used extensively in finishing.

## D

### Discolite\* (dīs/ kō . lītē)

Concentrated sodium sulphoxylate formaldehyde available in lump, pea, rice or powder form.

A powerful reducing agent, stable at high temperatures. Widely used to effect reduction and solution of vat colors, and for discharge effects when applied to colored grounds. Effective when mixed with vat colors and discharge pastes wherever the reducing agent must retain its reducing power after being dried into the fabric.

### Dispersall (dīs . pūr/ sal)

A long chain ethylene oxide condensate in the form of a colorless, neutral, somewhat viscous liquid. Fully resistant to hard water, and miscible with water in all proportions. A retardant and leveling assistant in vat dyeing.

Used widely as a dispersing agent in dyeing synthetic fibers with disperse colors and for fast color salts and bases in Naphthol dyeing and printing.

Effective in stripping to prevent redeposition of the color on stripped goods.

## N

### Neowet (nē/ ō . wēt)

Complex Polyethelene Ether in the form of a pale yellow, slightly viscous liquid.

A non-ionic surface active wetting agent, effective at all temperatures. Completely compatible with enzymatic desizing agents and readily soluble in water. Contains 33 1/3% active ingredients. Widely used in scouring all types of textile fabrics and for general wetting purposes.

### Neowet X (nē/ ō . wēt)

Organic Ether Sulphonate in the form of a water white slightly viscous liquid.

An anionic surface active wetting agent, effective at all temperatures. Does not affect enzyme activity in desizing. Compatible with hydrogen peroxide and resin finishes. High detergent value. Contains 20% active ingredients.

## Neozymes\* (nē/ ō . zīms)

Desizing agents made up of amylolytic, proteolytic and fat splitting enzymes available in the form of crystalline powder or liquid concentrate for high or low temperature requirements.

Neozymes quickly remove all trace of starch glue or gelatin sizing without danger of damage to even the most delicate fabrics. For best results, use with NEOWET to speed saturation.

## P

### Parolite\* (pār/ ō . lītē)

Zinc sulphoxylate formaldehyde in the form of white crystalline powder. A highly concentrated stripping agent for all forms of wool and modern synthetics.

Completely soluble in water. Leaves stripped goods soft, completely free of zinc dust and in most receptive condition for further processing. Often completely strips goods where other stripping agents fail. Very effective in discharge printing on acetate rayon.

## V

### Vatrolite\* (vāt/ ō . lītē)

Concentrated sodium hydrosulphite in the form of white crystalline powder. A powerful reducing agent for vat colors, ideal for dry feeding because of its free flowing, dustless character. Completely soluble in water.

Effective stripping agent for direct, sulphur and vat colors on cellulosic fabrics.

Quickly removes rust stains from cotton goods. May be stored indefinitely.

Available with optical whites and in buffered formulas for high temperature use without excessive alkalinity.

### Velvoray\* (vēl/ vō . rāy)

A high grade finishing oil made up of sulphonated vegetable oil combined with specially selected fats.

Compatible with all materials commonly used for finishing textiles. Will not foam, smoke or oxidize. Imparts no rancid odor. Gives body and has emulsion stability. Widely used to add a silky softness to all types of fabrics.

### Velvo Softener (vēl/ vō)

A highly sulphonated tallow in the form of a creamy white paste, easily dispersed in water. Used in general finishing of all types of textile fabrics. Will not "smoke off" or change color in high temperature operations such as calendering or drying. Has no effect on light fastness of colors.

Strategically placed warehouses plus company owned trucks add up to fast dependable delivery, every time.
